TREVOR BROWN

630-301-0589 · trevorbrown.web@gmail.com · trevorthewebdeveloper.com

SUMMARY

Award-winning investigative journalist with 15 years in newsrooms covering elections, government and public policy across four states. Turns public records and complex datasets into clear, accurate charts, maps and interactive graphics using Tableau, Datawrapper, Flourish and Chart.js. Now builds production web applications and data pipelines in JavaScript, TypeScript and SQL.

WEB DEVELOPMENT

Frontend & Backend Developer — 2023 – Present

Keith Brown DDS (Naperville, IL)

- Built production Next.js site from scratch — layout, forms, call tracking, full design system
- Manages $2,000/month Google Ads campaign with API dashboard integrating GA4, CallRail and Google Business Profile; increased new patient bookings by 33%
- Built admin dashboard with Clerk authentication, role-based access, Python billing pipeline and AI chat interface via Anthropic API

JOURNALISM & DATA VISUALIZATION

Investigative Reporter — 2016 – 2022

Oklahoma Watch (Oklahoma City) — independent nonprofit newsroom

- Investigated Oklahoma's legislative, executive and judicial branches for independent nonprofit newsroom — beats included elections, dark money, criminal justice, redistricting and public health
- Built Tableau dashboards, Datawrapper charts and Flourish visualizations for own investigations and for other reporters published under Creative Commons and republished by other outlets
- Investigations included hospital billing practices (22,250 court records), voter registration purges (90,000+ records), partisan legislation (3,600+ bills), campaign finance and redistricting

State Capitol Reporter — 2011 – 2016

Wyoming Tribune Eagle (Cheyenne)

- Covered the governor's office, state legislature and state budget across three election cycles
- Broke story on Wyoming Highway Patrol using ticket quotas to evaluate troopers — practice rescinded after publication

Reporter & Editor — 2007 – 2011

CNHI (14 papers in Oklahoma), Staunton News Leader (Virginia daily), Indiana Daily Student (Indiana University)

- Sole statehouse correspondent filing for 14 newspapers across Oklahoma
- Daily newspaper reporter at Staunton News Leader covering local government in Virginia
- Editor-in-Chief of Indiana Daily Student (Indiana University), directing 100+ student journalists

TECHNICAL SKILLS

Languages
JavaScript, TypeScript, Python, SQL, HTML, CSS

Frameworks
React, Next.js, Node.js, Tailwind CSS

Data & APIs
PostgreSQL, REST APIs, Google Ads API, Chart.js, data pipelines

Auth & Tooling
Clerk, NextAuth, Better Auth, Playwright, Git, Vercel

AI
Claude API, OpenAI API, Gemini API, Grok API, Ollama

Domain
Newsroom workflows, editorial judgment, FOIA, deadline publishing

EDUCATION

Web Development Certificate (2022)
University of Oklahoma / Fullstack Academy
260-hour intensive program

B.A. Journalism (2008)
Indiana University

B.A. Political Science (2008)
Indiana University

AWARDS & RECOGNITION

Writer of the Year (2021)
Great Plains Journalism Awards

Reporter of the Year (2020)
Oklahoma Society of Professional Journalists

1st Place, Investigative Reporting (2022)
Oklahoma Society of Professional Journalists

Community Champion (Honorable Mention) (2020)
Institute for Nonprofit News

WEB PROJECTS

Second Brain — Personal Data Platform (2026)
TypeScript, React, Next.js, Node.js, PostgreSQL, Anthropic API

- Fullstack application with TypeScript data pipelines processing 200,000+ records from 14 sources, React frontend with search and visualization dashboards, API route handlers, and Tauri desktop wrapper

Keith Brown DDS — Admin Dashboard (2024)
Next.js, Google Ads API, Clerk Auth, Python

- Authenticated admin dashboard with role-based access, financial reporting pipeline, and real-time Google Ads performance metrics

News Pulse (2025)
TypeScript, Next.js, PostgreSQL, REST APIs, Better Auth

- News monitoring dashboard aggregating live feeds from Bluesky, Telegram, Mastodon, RSS and API sources with OAuth authentication and AI briefings

AI Model Arena (2025)
TypeScript, React, Claude/GPT/Gemini/Grok APIs

- 4-way LLM comparison tool with concurrent API calls, response streaming, error recovery and real-time cost tracking
